R. L. POLK & CO.

STANDARD SERVICES

MOTOR STATISTICAL DIVISION

PREFACE

With the development and growth of the automobile in 20th Century America, there came the increasing need to keep track of the expanding vehicle population.

In 1922 Polk began compiling motor vehicle ownership information from state motor vehicle registration records. The Company's first report, issued that same year, carried totals on 132 different makes totaling 12,245,881 cars and trucks. 1983 was over 147,104,519 vehicles.

Today the Motor Statistical Division of R. L. Polk & Co. compiles registration statistics on:

...Automobiles
...Trucks
...Commercial Trailers
...Motorcycles
...Motor Homes

Polk statistics are compiled from Motor Vehicle Department records and new vehicle data are supplied monthly, quarterly, semi-annually or annually as desired. Reports are issued for each post office town, county and state in the entire United States.

Many additional specialized reports are compiled to meet individual customer specifications...reports on Census Tract, Fleet, etc.

Once a year, as of July 1, a report is published showing the number of vehicles in operation, by make and by year model.

MOTOR STATISTICAL DIVISION

FEBRUARY, 1986

EXCLUDES FEDERAL GOVERNMENT REGISTRATIONS

SERVICE "C"

Service "C" is a statistical report of new car registrations compiled by make and series.

The geographical coverage is by individual POST OFFICE TOWNS accumulated to a county total.

Published monthly, this service shows month and year-to-date totals for the current year.

Certain select cities are arranged by individual Market Segments.

DETROIT MARKET SEGMENTATION AREA

M11

MONTH FEBRUARY 1985 PAGE 2 OF 6 STATE MICH 21 COUNTY WAYNE 163 132

SERVICE "K"

Service "K" is a statistical report of new import car registrations by make and manufacturer. The geographical coverage is by state to a U.S. Total.

Published monthly, this service shows both month and year-to-date totals. Current and previous year totals are shown for the United States.

A percentage of penetrations of the import car total to the United States Industry total is shown for each state. Memo totals by country of Manufacturer-Origin are shown for each state and the United States Summary.

SERVICE "L"

Service "L" is a statistical report of new import car registrations by make and manufacturer.

The geographical coverage is by individual COUNTIES accumulated to a state total.

Published monthly, this service shows month and year-to-date totals for each county.

Current and previous year figures are shown for each state. A percentage of penetrations of the import car total to the industry total is shown for each county. Memo totals by country of Manufacturer-Origin are shown by county with an accumulated state total.

SERVICE "I"

Service "I" is a statistical report of new truck registrations by make and gross vehicle weight.

The geographical coverage is by individual POST OFFICE TOWNS accumulated to a county total.

Published monthly, this service shows month and year-to-date totals for the current year.

Certain select cities are arranged by individual Market Segments.

STATE MICH MONTH FEBRUARY 1985

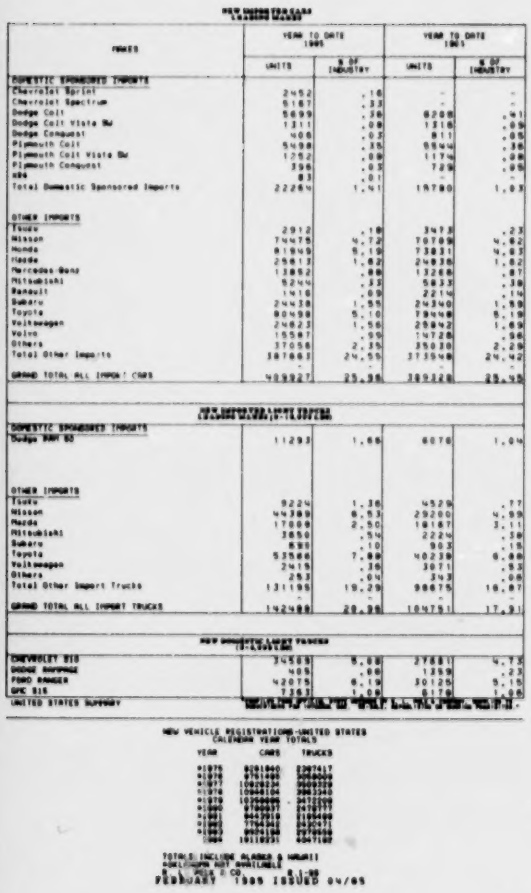
POCKET SUMMARY

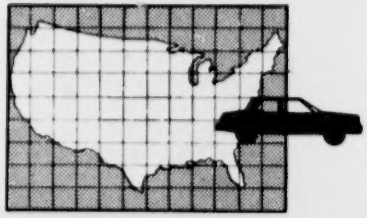
The Pocket Summary is a small compact report designed, as the name implies, to be carried in the pocket of those individuals who are interested in the latest statistics on car and truck registrations for both Domestic and Imported Vehicles.

Passenger car registrations for the United States are compiled by make and selected series. Month and year-to-date figures are shown for both the current and previous year. In addition, a year-end total for the previous year is shown.

Truck registrations for the United States are compiled by make. Month and year-to-date figures are shown for the current year. Year-to-date figures are shown for that same period of the previous year. The truck registrations are also compiled by weight group on a year-to-date basis for the current year. The weight group total is shown covering the same period of the previous year.

Imported car and truck registrations are compiled on the report for the top 10 and 4 leading makes based on current year statistics. The total of all import car and truck registrations are shown for the current and previous year.





POLK AUTOMOTIVE MARKET INFORMATION SYSTEM

a new service providing answers to key questions...

- Is the new front wheel drive Celebrity recapturing Malibu owners?
- What are the demographic characteristics of the new Thunderbird purchasers?

...about your products as well as the products your competitors sell.

(Memo Total)-To be included in GVW 1,2 & 3

1 Includes Ram Vans, Ramcharger, Ram 50
Rampage, Caravan and Ram wagon

2 Includes Ranger, Bronco, Vans and Rerostar

3 Includes El Camino, Blazer, S10, Vans and Astro

4 Plymouth Includes Voyager PU

5 Includes Vans Cavalier/Z, Jimmy, S10 and Safari

6 Includes CJ's, Cherokee, Wagoneer and Scrambler

POLK ANALYSIS OF NEW TRUCK REGISTRATIONS

The Truck Model report is a statistical report of new truck registrations compiled by make, model name code, and gross vehicle weight. This report is produced in two sections: GVW I through III; GVW IV through VIII. A United States summary showing month and year-to-date totals is published monthly.

Year-to-date totals by State are compiled and published quarterly.

PASSENGER MODEL REGISTRATIONS
BY CAR LINE & ENGINE

This service is a statistical report of current model year Domestic new car registrations by manufacturer, make, car line, engine type and cylinder. Engine type is shown by car line and summarized within manufacturer. Engine type, as a percent of car line and manufacturer, is also shown.

This report is published quarterly on a model year-to-date basis showing only year-to-date totals.

NEW MOTOR HOME REGISTRATION SERVICE

This report shows the count of new retail sales of conventional (Type "A") motor homes and Mini-Homes (Type "C"). Compiled monthly, the service shows figures for the "current month" and calendar year-to-date for approximately 96 individual brands. In addition, there are corporate totals for 10 major manufacturers that market their products under more than one brand name.

Geographically, the report is compiled by county within state, across the U. S. (except Oklahoma).

FOUR WHEEL DRIVE VEHICLES

The Four Wheel Drive Report is a statistical report of 4-wheel drive registrations by make and type of vehicle; pick-up, sport/utility and station wagon.

The report is compiled by state and U. S. summary on a quarterly basis showing current quarter and year-to-date figures.

NEW RETAIL TRUCK BY
TELEVISION AREAS OF DOMINANT INFLUENCE

This service is a statistical report of new truck registrations less Fleet shown by make and series and summarized by gross vehicle weight. Memo 4 x 4 totals by make and summarized to an Industry total. Make and series, as a percent of Industry and group totals, are also shown.

Published quarterly, on a model year-to-date basis, this report shows both the current six (6) months and year-to-date totals for both total U. S. and selected ADI's.

MOTOR STATISTICAL DIVISION

MOTORCYCLE REGISTRATION SERVICE

The Motorcycle Registration Service is a statistical report of New Motorcycle Registrations, compiled by State, County, Make and Engine Displacement.

Totals for all states are accumulated to a U. S. Summary.

Published monthly, this report shows month and year-to-date statistics. The U. S. Summary provides a "Make percent of Industry".

A percent comparison is shown for each state, county, month and year-to-date for current and previous year.

Also, a month and year-to-date comparison is shown by make for 1984 and 1985.

THE THREE COLUMN COUNT

The Three Column Count is a statistical report of all cars and trucks in operation as of July 1.

Published each year, the three columns shown are respectively: Total passenger cars, total trucks, and total passenger cars and trucks. This report is comprised of County, State, and United States totals with the percentage of United States totals and rank shown for each county and state.

THE TIRE SIZE COUNT

The Tire Size Count is a statistical report of Cars and Trucks in operation as of July 1, of any given year.

The registrations are accumulated to a passenger car total, trucks on passenger car tire size total, trucks, trailers, and busses total, and a passenger car and truck total. The geographical location is by Post Office town accumulated to County, State and U. S. Summary totals.

THE NATIONAL VEHICLE POPULATION PROFILE

For more than half a century, R. L. Polk & Co. has been the "official scorekeeper" for the automobile industry in the United States. Through many years of experience in producing new passenger car and truck registration reports, Polk has long known of the variances in consumer preference of new cars that exist across the country. The differences in consumer preference of new vehicles, of course, ultimately translate into a varying mix of "vehicles in operation."

The National Vehicle Population Profile has been developed to assist those that require detailed knowledge of the nation's vehicle population - particularly those in the replacement parts market. The service shows the count of domestic and import cars and light trucks (through 10,000 lbs. GVW) in operation by:

- Make (Buick, Ford, VW, etc.)
- Series (Electra, Thunderbird, Rabbit, etc.)
- Body Style
- Engine Size (cylinder, count, cubic inch displacement, carburetion)
- Year Model (Denoting age of vehicle)

In addition to the above information in the standard NVPP package, following are "optional" data items available only on the magnetic files that are part of the total data package:

- Wheelbase/Wheelbase range in the case of some light trucks
- Curb Weight (cars only)
- Front Wheel Drive
- Transverse Mounted Engine
- Standard Tire Size

SPECIAL NOTES

Several abbreviated column headings are used in the Detail Report and are described as follows:

- SER - Series
- B/S - Body Style
- CYL - Cylinder
- CID - Cubic Inch Displacement
- CC - Cubic Centimeters - Import Cars and Trucks
- ENG - Engine Code contained within the Vehicle Identification Number
- BBL - Carburetor barrels (venturi) The letter "F" in the BBL column denotes fuel injection. "T" denotes trottle body.
- VEH - Vehicle Count

There are instances where an alphabetic character appears beside the carburetor barrel count. They are defined as follows:

SYMBOL	INTERPRETATION
H	High-performance engine. May be either those of the racing type or police engines.
B	Gas Turbo
S	Diesel Engine
J	California Gas Engine
R	Methanol Fueled
P	Propane Fueled
D	Dual carburetors fuel injection. Note engines are all high-performance.
L	California Gas Turbo
T	Truck engines in passenger car vehicles. Invariably used on window vans (classified as station wagons by the automobile manufacturers).
X	Diesel Turbo
C	Passenger car engine in truck vehicle.
M	California Diesel Turbo
3	Triple two (2) barrel carburetors. (All are high-performance engines).
N	California Diesel

MODULE #2 - IMPORT CARS

ENGINE SUMMARY - IMPORT CARS

Figures are arranged by engine only. It should be noted that very few import car manufacturers offer optional engines. Thus, only one engine is available within a single series of import cars in nearly all situations. Diesel engines are also identified, and fuel injection where applicable.

MODULE #3 - LIGHT TRUCKS

ENGINE SUMMARY - LIGHT TRUCKS

Figures are shown by engine cylinder count, cubic inch displacement and carburetion, and fuel injection.

Passenger car engines are highlighted by the following alphabetic symbol beside the carburetor barrel (BBL) column.

SYMBOL	INTERPRETATION
C	Passenger car engine in truck vehicle.
H	High-Performance engine. May be either those of racing type or police engines.

Truck engines are highlighted by the following alphabetic symbol beside the carburetor barrel column.

SYMBOL	INTERPRETATION
S	Diesel Engine
P	Propane Fueled
X	Diesel Turbo
J	California Gas Engine
N	California Diesel
B	Gas Turbo

I. VEHICLES INCLUDED IN STATISTICAL FILE

Only trucks in GVW Groups 3 through 8 (10,001 lbs. gross vehicle weight and heavier) will be counted in the Medium/Heavy Truck Module. All vehicles registered as of July 1, 1984, in the United States (except Oklahoma) will be included. Federal Government owned vehicles are exempt from state registration requirements and, therefore, cannot be included in the NVPP.

II. STATISTICAL METHODOLOGY AND DETAILS BY INDIVIDUAL MAKES

The manufacturer's vehicle identification number (VIN) is the primary element from which descriptive information about each truck is obtained. By matching the VIN taken from official state registration records with the vehicle manufacturer's VIN specifications, we are able to assign with confidence major characteristics to each medium and heavy truck on the streets and highways of the United States. Hence, the NVPP is indeed a census compiled annually from state registration records. Because the specific identifiers in each truck manufacturer's VIN vary, the amount of statistical information that can be produced for each make can vary by year model as well as the physical description of the respective vehicle. In addition, some manufacturers do not identify (in their VIN) the specific engine installed in a given vehicle. In these situations, the standard engine will be shown and will be appropriately noted on the format.

III. SPECIAL NOTES ON DESCRIPTIVE VARIABLES

DESCRIPTIVE VARIABLE	SPECIAL NOTES
MAKE	Vehicles are classified as one of the 19 makes listed below or included in the "Other Makes" category:

Autocar	Iveco/Magirus
Brockway	Kenworth
Chevrolet	Mack
Diamond Reo	Mercedes Benz
Dodge	Oshkosh
Ford	Peterbilt
Freightliner	Volvo
FWD	Western Star
GMC	White
International	

COUNTRY OF ORIGIN	Imported vehicles are classified as to their country of origin. Vehicles produced in the U. S. A. in plants owned and operated by foreign firms will be classified as originating in that foreign country.
YEAR/MODEL	Vehicles are classified as to their year/model as designated by the manufacturer.
GROSS VEHICLE WEIGHT (GVW)	Vehicles are classified as to their appropriate GVW (3 through 8). Those vehicles where GVW is unknown will be classified as GVW 9.
SERIES/CHASSIS (MODEL)	Vehicles are classified as to their respective series and chassis (model), e.g., Ford L-9000.

CAB CONFIGURATION	Vehicles are classified as to cab configuration. Possible classifications include: Conventional - short, medium, and long nose Tilt (COE) - high and low profile Schoolbus (chassis-cowl) Other In the "other" column, special cab styles will be indicated where they can be determined, e.g., fire truck, etc.
AXLE CONFIGURATION	Vehicles are classified as to axle configuration. The axle configuration relates only to "wheels by wheels driving", e.g., 6x4, 6x2, 4x2, etc. Axle manufacturer and/or specific design cannot be obtained through any manufacturer's VIN. The same applies to transmissions.
VEHICLE MANUFACTURER'S ENGINE CODE	Vehicles are classified as to the vehicle manufacturer's engine code. Note that not all vehicle manufacturers assign an engine code.
ENGINE MANUFACTURER AND ENGINE MODEL	Diesel engine manufacturer (Caterpillar, Cummins, Detroit Diesel, Perkins, etc.) will be shown along with diesel engine model number where possible. The actual engines will be shown and identified accordingly in the engine section of the format. However, some manufacturers do not identify the specific engine in their VIN. In those situations, the standard engine will be shown and will be appropriately noted on the format.
CYLINDER COUNT AND CONFIGURATION	Vehicles are classified as to engine cylinder count and configuration (inline or banked).
ENGINE DISPLACEMENT	Vehicles are classified as to cubic inch displacement or cubic centimeters (imports only).

CARBURETION	Vehicles are classified as to engine carburetion (number of barrels) or F for fuel injection. Note that all diesel engines are fuel injected. (Carburetor manufacturers are not identified).
FUEL TYPE	Vehicles are classified as to engine fuel type; gas, diesel, electric and propane.
HORSEPOWER	Vehicles are classified as to their rated engine horsepower. Unless otherwise noted, all ratings are net horsepower.

IV. REPORT FORMATS

The Medium/Heavy Truck Module consists of four (4) printed formats:

GVW counts by Make and Year
Series/Model Summary
Engine Summary
Composite Summary

This data file is also available on magnetic tape according to the following densities:

9 Track 6250 BPI
9 Track 1600 BPI

GEOGRAPHIC LEVELS

The Medium/Heavy Truck Module is presently summarized at the following geographic levels:

U. S.
State
County

The county level Summaries are available on magnetic tape only.
